**Chemical Detergents for  
Industrial & Institutional Use**

# Company Profile

Founded in 1976 by Mr. Galal G. Yassa, TCL (Technical Chemical Laboratories) began its journey in Egypt, with a vision to revolutionize industrial hygiene by offering solutions that are both effective and environmentally responsible.

## **Our Vision**

We believe that hygiene should never come at the expense of the environment. With this principle at our core, TCL has emerged as a leading manufacturer of chemicals for kitchens, housekeeping, laundry, and water treatment across the Middle East. We continue to grow through the development of innovative, sustainable solutions tailored to modern industry needs.

## **Our Mission**

Our mission is to deliver high-quality, eco-friendly chemical products to the hospitality and healthcare sectors, supporting diverse operational departments. By maintaining a client-centric approach, we ensure our products are continuously shaped by feedback and practical insights from those we serve. Our goal is to exceed customer expectations and fulfill their requirements with precision and reliability.

## **Commitment to Service**

Customer satisfaction is fundamental to our success. Our after-sales service is a cornerstone of our business philosophy, ensuring clients receive ongoing support and education on the importance of hygiene and sanitation. We invest heavily in training hotel professionals on proper chemical usage to promote safe and sanitized work environments.

In response to growing demand and public awareness in the Gulf region, TCL established its Dubai Regional Office in 2006.

This strategic expansion allows us to better serve our clients and align with the UAE's progressive hygiene and sanitation regulations.

We are proud to consistently meet and often exceed the stringent standards set by government agencies and health authorities.

Our ISO certification is a testament to our commitment to quality, safety, and continuous improvement.

TCL remains dedicated to introducing cutting-edge products that combine innovation with reliability, helping our valued clients maintain the highest standards of cleanliness and hygiene.

Our journey continues, and our focus remains clear: to develop and deliver innovative, high-performance sanitation and hygiene solutions that make a difference.

*Our Sincere Regards,  
Dr. Hoda G. Yassa  
President and CEO*

## Marble Floor Care Products

### **GMAKY Royal Powder**

Dilute GMAKY Royal Powder with water at percentage of 1:10. Apply on marble floors using red pad & buffing machine until it dries. It gives you the excellent shining result you truly desire.

### **GMAKY Buffing Liquid**

Liquid Marble Maintainer  
Spray directly on the marble floors using a white pad. Keep buffing the floor until it gets dry. GMAKY Buffing Liquid ensures that the shining of marble will last for a long time.

### **Royal Reingen**

Liquid Marble Crystallizer  
Used to polish marble. It transforms 5 microm from the marble layer to a shiny layer. When a traffic area loses its shine, you can re-crystallize the specific area only. 1 liter of Royal Reingen spreads up to 30 sqm for the first polish.

### **Techno Bright**

Granite & Marble Wax  
Wax for marble and granite floors and walls. It makes your granite floors look glossy and shiny. We recommend to use Techno Bright on walls and stairs made of marble or granite.

### **Mirage**

Marble wax stripper used for removing any wax layer and for cleaning the marble properly before applying the new wax layer.

### **TCL Marble Polishing System**

We recommend the use of GMAKY Powder on a regular basis to protect marble floors and to maintain the optimum shining result required.

#### **FAQ**

**Do I need to hire a professional marble polishing company?** No, now its easy to maintain your marble floors by yourself; all you need is GMAKY Powder / GMAKY Buffing Liquid / High Speed Single Disk Machine / Red & Diamond Pad.

#### **How to get the best marble polishing results?**

- Wash marble floor with Mirage and add 100 ml to 20 liters of water.
- Remove dirty water, rinse properly and allow the marble to dry.
- Spread GMAKY Powder on the marble floor, spray GMAKY Buffing Liquid on GMAKY Powder and use red or diamond pad with the high speed marble polishing machine. Keep buffing until the liquid dries off the marble.

#### **Why to use GMAKY Marble Products?**

GMAKY Powder reacts with 5 microm of the marble (calcium carbonate) to form a crystal layer (Silicate). The new formed layer on the marble when using GMAKY products protects the marble floor from scratches, reduces the marble absorbance and prevent stains caused by liquid juices, tea or coffee.

## Floor Care Equipment

### **GMAKY Single Disk Machine**

#### **GSD 17**

Used for washing carpets, polishing and buffing marble, ceramic, and wooden floors.

### **GMAKY Carpet Shampoo Machine**

Through high pressure spraying, the carpet shampoo can be sprayed into the bottom of the carpet, so as effectively dissolve the obstinate dirt and stain. In washing the carpet, the cleaner can open the fibre flocks of the carpet and clean the dirt off the carpet softly and thoroughly. The specially arranged roll brush can synchronistically brush apart the tangled carpet hair, making the carpet more elastic after cleaning. It sucks all dirt and water deeply from the carpet. Vacuum, wash and suck, three in one functions that can meet your different demands.

### **GMAKY Carpet Blower**

Carpet dryer blower is manufactured with a horizontal airflow direction. It is widely used to dry floors and carpets in an industrial environment.

### **GMAKY Wet & Dry Vacuum Machine**

Used for sucking water from different kinds of floors and for cleaning and removing dust from carpets, sofas, and curtains.

# Services & Facilities

## Dispensers & Dosing Systems

We provide advanced dispensers and dosing systems on a complimentary loan basis, ensuring precise and efficient chemical usage while supporting your operational needs at no additional equipment cost.

## Products Delivery

We deliver our client's order at the fastest possible time and ensure to receive the proper local purchase order.

## Theoretical & Practical Training

Comprehensive theoretical and practical training programs will be provided to all housekeeping team members. Conducted by our experienced training managers, these sessions focus on the proper and cost-effective use of our products—ensuring exceptional cleaning results while reducing product waste and operational costs

## Hygiene Audit

Benefit from biannual complimentary hygiene audits conducted by TCL experts. These assessments help ensure your facility meets the highest standards of cleanliness and compliance, while also offering practical recommendations for continuous improvement

## Marble Polishing & Carpet Cleaning Services

Enjoy complimentary marble polishing and carpet cleaning services up to four times per year (excluding the cost of chemicals). Customers are required to purchase the recommended chemicals, while TCL provides both the cleaning services and staff training at no additional charge. These services help maintain the appearance, hygiene, and longevity of your marble surfaces and carpets, ensuring your facility always looks its best.

## Technical Support

Providing professional technical support is a top priority at TCL, as we firmly believe our clients are the cornerstone of our success. Our dedicated technical team conducts regular visits to your hotel or hospital to inspect our dispensing systems, ensuring they are operating correctly and delivering the precise dosage required for optimal performance and cost efficiency.
